Called that right – the Flying Bridge, apparently from its vantage high over the Boise River, was able to see far enough up basin so as not to be too worried about getting washed down to Glenwood this year. Word on the street now has a Grand Re-Opening scheduled for mid-morning today. Hurrah for the likes of Stephani, Jan (aaka<sup>1</sup> "Chopped Liver"), Brian, Mike C & Jordan & Jared for getting this accomplished. The uptick in Natural Flow is bringing the Pesky Blue Line off its downward curve and back to normalcy (Red Line). Once everyone returns from Spring Break and presumably frolicking in faraway lands, we'll see what an updated **Snow/Precipitation Update Report** brings. BTW – Last week's call to a boring runoff season was met by a few wags with an ear to the hills saying there's more to come. We'll see. No reason to get one's shorts in a wad, yet – Steady as She Goes! Stay tuned.

Steve
